

How Far Will It Go?

Today I want you to make a dart from paper and see how far it will go.

You will need

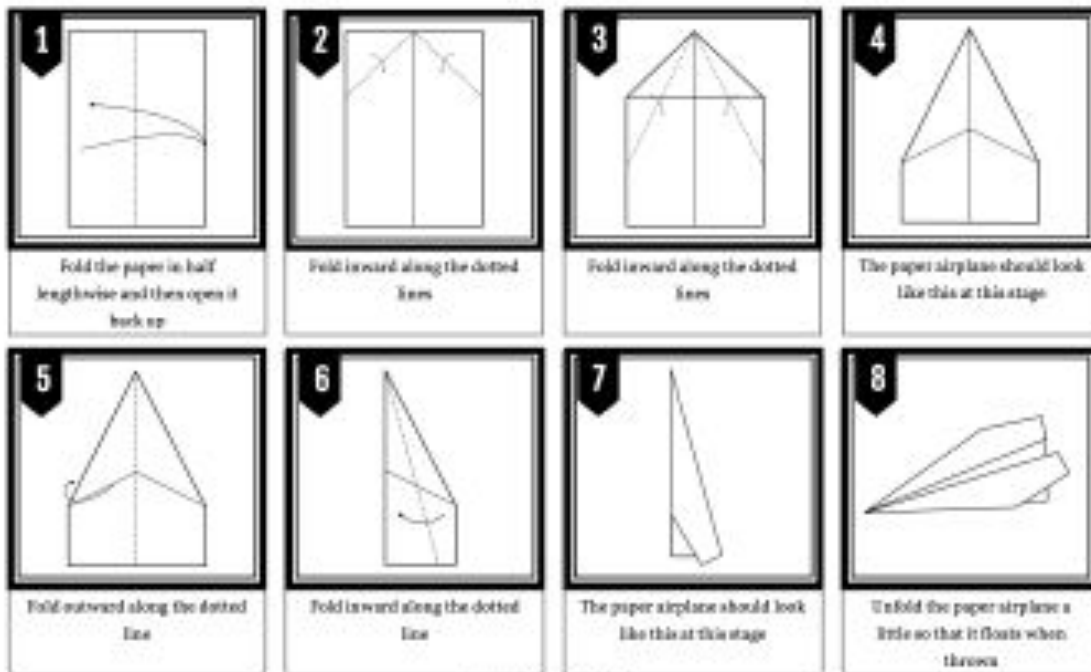

- A4 computer paper
- Pencil to draw fold lines if needed
- Tape measure to see how far dart flies
- Stopwatch from cell phone to see how long it stays in the air
- Cell phone camera to record best flight.

First, look at YouTube clip of dart making and flight

<https://www.youtube.com/watch?v=gbyPsN3sqe4>

For a diagram of how to make a dart look below

HOW TO FOLD A PAPER AIRPLANE

For experts, click on this link <https://www.foldnfly.com/#/1-1-1-1-1-1-1-1-2>

Senior and Nan look forward to seeing what darts can do

Question – why do planes have wings?
